

TAP-TO-REVIEW STANDS · MADE BY HAND IN SOUTH LAKE TAHOE

Your guests leave the review before they leave the table

A small stand sits on your counter. The guest touches it with their phone and **your** Google review page opens — already loaded, ready to type. No app. No QR code. No searching for your name.

HOW IT WORKS

1

They tap

A chip inside the stand talks to the phone. Every iPhone since 2018 and every modern Android reads it with nothing installed — the guest just holds the phone near it.

2

Your page opens

Straight to your Google review box, with your name and stars on screen. Two seconds from tap to typing.

3

They write it now

While the meal is still in front of them — not three days later from an airport, which is to say never.

WHAT YOU GET

THE COUNTER INSERT AT HALF SIZE — 8" × 2" IN REAL LIFE. GOOGLE ON ONE END, YELP ON THE OTHER.

- **The counter stand.** Angled acrylic with a printed insert — gold on a deep colour, one tap zone at each end. The insert slides out of the stand, so the artwork can be changed later without buying a new one.
- **The check-presenter cards.** Laminated cards that stand above the bill folder, so the guest sees one the moment they open it — at the point in the night when they are happiest with you. One per folder; most rooms run 10 to 20.
- **I set it up in front of you.** I come in with my laptop, pull up your Google listing, write it to the tag and test it at your counter. You watch your own review page open on my phone. That is the job — from then on the piece is yours.
- **Want it to be yours, not generic?** Your logo, your colours, and the second zone pointed wherever you want instead of Yelp — **\$3 more per piece.**

IT FOLLOWS THE RULES

Most of what is sold in this category does not. That is worth two minutes of your time before you buy anything like it, from me or anyone.

- **No filter screen.** The tag opens Google directly. It never asks "how was your experience?" first to route unhappy guests somewhere private. That is review gating — banned by Google, and covered by the FTC rule in force since October 2024.
- **No incentives.** Nothing is ever offered in exchange for a review. Google removes those reviews and can suspend the whole profile.
- **Yelp handled correctly.** Yelp does not allow businesses to ask for reviews, and the penalty lands on you, not on the vendor. So that end says "Find us on Yelp" and opens your Yelp page, not a review form. That is the wording Yelp itself hands out.

PRICE One-time. Nothing monthly, nothing to cancel, nothing to sign.

ONE AT A TIME	PLAIN	+ LOGO	PACKS	PLAIN	+ LOGO
Counter stand	\$30	\$33	2 stands + 10 cards	\$150	\$175
Check-presenter card	\$15	\$18	4 stands + 20 cards	\$280	\$320

Smaller packs — 2 stands **\$50** · 5 cards **\$65** · 1 stand + 5 cards **\$85**. The price you see is the price you pay — no tax, no fees.

The same card online runs \$25-\$30, arrives in the post, and you programme it yourself off a web form. Mine is \$15, written at your counter while you watch — and you get my phone number, not a support address.

NOT JUST RESTAURANTS

Hotels and cabins · ski and bike rentals · fishing and kayak guides · salons, vets and shops. Google holds one end; the other becomes TripAdvisor, your booking link or your menu.

TAP THE ONE IN MY HAND

It already carries your review link. If it does what I say it does, start with one stand today — \$30, working before I leave.
